

Quick & Safe Connections to CGA 870 Post Valves

- Aluminum body. Delrin actuator lever & stainless steel actuator piston
- Seamless integration with any existing 870 system
- Tested to over 150,000 cycles in excess of rated pressure and application conditions
- Patented, smooth movement lever actuation

MediMate is simple to use with a no twist, no turn approach to filling. Simply connect onto your CGA 870 post valve and lock into place with a forward movement of the actuator lever and you are ready to fill the cylinder in seconds.

The lightweight aluminum and stainless seal actuator piston maximize product performance and service life. Each **MediMate** is supplied with a straight-flow 180 degree termination port and FDA grade Viton elastomer seals. The elastomer compound used is based upon industry approval and performance characteristics for the application.
